Carbon Reduction Plan

Supplier name:	**City and County Healthcare Group**
Publication date:	1st June 2025
Commitment to achieving Net Zero	
CCH Group	Has committed to achieving Net Zero by 2045
Baseline Emissions Footprint	
Baseline Year:	2022
Additional details relating to the Baseline emissions calculations	None
Baseline year emissions	
EMISSIONS	TOTAL (tCO2e)
Scope 1	**274**
Scope 2	**273**
Scope 3	
Business travel	6202
Fuel and energy related activities	Not reported
Total Scope 3	**6202**
Total Emissions	**6749**

Current Emissions Reporting

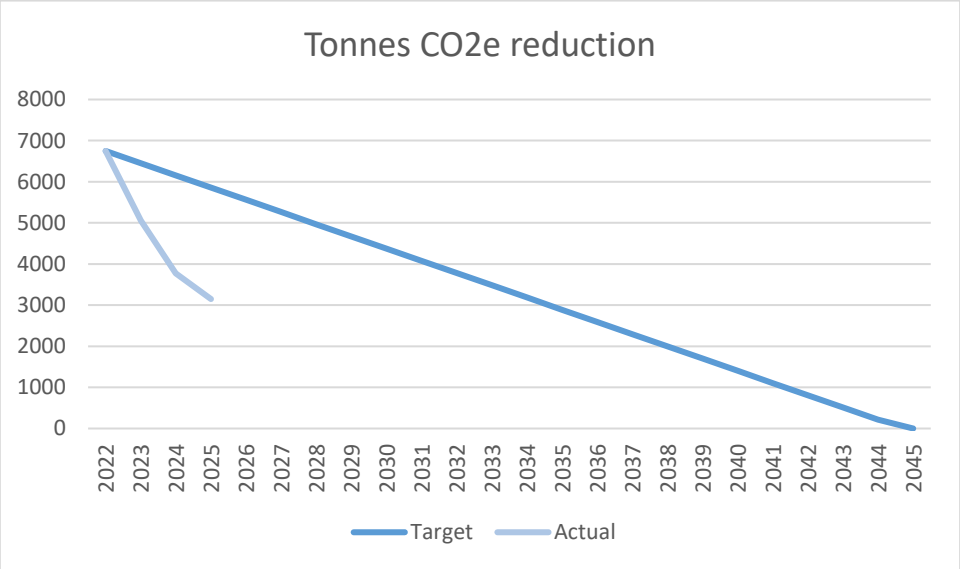
Reporting Year	2025
EMISSIONS	TOTAL (tCO2e)
Scope 1	**135**
Scope 2	**142**
Scope 3	
Business travel	2871
Fuel and energy related activities	74
Total Scope 3	**2945**
Total Emissions	**3222**

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets

We project that carbon emissions will decrease over the next five years by 60% against base year 2022	**To 2700 tCO2e**

Progress against our net zero target can be seen in the graph below:



Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2022 baseline. The carbon emission reduction achieved by these schemes equate to a 54% reduction against the 2022 baseline and the measures will be in effect when performing the contract which is: **3601 tCO2e**

- LED lighting including light switches removed for sensors
- Energy reduction program – heating systems set at certain temperatures and with timeclocks to complement office opening and closing times
- Installation of smart energy meters

In the future we hope to implement further measures such as:

- Reduce business travel emissions by greening our fleet and increase use of online meeting tools. Transport emissions will fall as cars, trains and planes produce less carbon
- Monitor and reduce commuting emissions
- Upgrade insulation in all leased locations
- Replace fleet vehicles to models with lower CO2e, eventually moving to hybrid / electric options
- Continue with the LED lighting / light switches programme

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard1 and uses the appropriate Government emission conversion factors for greenhouse gas company reporting2.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard3.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
